

ADAM GISZTER

FRONT-END DEVELOPER
with an engineer's mindset

PERSONAL DATA

- 693 555 565
- a.m.giszter@gmail.com
- linkedin.com/in/adam-giszter
- github.com/Giszta
- st. Galileusza 2F/3,
60-159 Poznań, Poland

KEY SKILLS

Front-end development

- HTML5 / CSS3 / Tailwind
- JavaScript / TypeScript
- React / Next.js / React Native
- Git / GitHub
- Visual Studio Code

Engineering Tools

- SolidWorks / AutoCAD / Inventor
- Excel + VBA (automation of office and technical workflows)
- Ability to create tools based on technical analysis and practical engineering knowledge

Soft & Organizational Skills

- Systematic, precise, and responsible
- Able to work independently and as part of a team
- Highly motivated and solution-oriented
- Attention to code quality and user experience

LANGUAGES

- Polish: Native language
- English: Upper intermediate

HOBBIES

CAREER OBJECTIVE

Frontend is my intentional career path. I used to design machines — now I design interfaces. I bring engineering logic into modern web development. React, TypeScript, UX and automation are my new tools. I enjoy creating user-facing applications that are structured, responsive, and purposeful.

PROJECTS

Portfolio Website <https://www.giszter.com/>

On my website, you'll find a collection of front-end applications I've built — from polished configurators to experimental side-projects developed for learning and ideation. Each project demonstrates a different approach to UI/UX design, code structure, and functional logic — grounded in real engineering thinking.

EDUCATION

2019 - 2021 [M.Sc. in Mechanical Engineering](#)
[Mechanical Engineering](#)

Poznan University of Technology

Specialization: Machine and Equipment Design

2015 - 2019 [B.Sc. in Mechatronics](#)

Poznan University of Technology

Specialization: Mechatronic Design

PROFESSIONAL EXPERIENCE

Dec 2023 – Jan 2024 [Front-end Intern – Inwebit, Poznań](#)

- Collaborated with experienced developers on real-world web and mobile projects
- Contributed code using TypeScript, React Native, and Angular
- Gained hands-on experience in componentization, version control, pull requests, and teamwork

Jun 2024 – Present [Technical Specialist – Radaway, Jasin](#)

- Streamlined customer communication by introducing standardized email templates
- Created an Excel tool (with VBA macros) to partially automate query handling and improve onboarding efficiency
- Initiated tech-driven process improvements with a developer's mindset: simplify, standardize, automate

2022 - 2023 [Mechanical Design Engineer – Dora Metal](#)
2019 - 2022 [Mechanical Design Engineer – FPC Polska](#)

- Designed technical products from concept to implementation: 3D modeling, 2D documentation, BOMs, feasibility studies
- Participated in testing, deployment, and product optimization
- Collaborated across engineering, production, sales, automation, and programming teams — gaining a strong user-focused perspective
- Learned how good design impacts the whole process — now I use that to shape UI architecture and front-end systems

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
